

THIRD ANNUAL SUSTAINABLE RARITAN RIVER CONFERENCE

Economy, Ecology and the Future of the Raritan River Region: *What's In It for Us?*

2011 Conference | Sustainable Raritan River Initiative
Thursday, June 16, 2011
Cook Campus Center, Rutgers University, New Brunswick, NJ

Objectives	This year's conference takes a regional approach to the economy, ecology and future of the Raritan River Region with an emphasis on understanding the economic value of our natural resources and how this matters at the municipal level. Join us for lively workshops and discussions about topics ranging from brownfield redevelopment to greenway connectivity and water quality planning to stormwater management. Every workshop
Agenda	Links to the full conference agenda and a list of the twelve workshops offered are available at: http://www.blueraritan.org/events/
Location	This full-day conference will be held at the Cook Campus Center on the Cook Campus of Rutgers University at 59 Biel Drive, New Brunswick, NJ. Parking for conference participants is available in the adjacent parking lot.
Highlights	<ul style="list-style-type: none"> • We have applications for CEU credits pending with the appropriate organizations for planners, landscape architects, engineers, public works managers, attorneys and licensed water system operators • Wonderful opportunity to learn more about the Raritan River Region and to network with other municipal employees, environmental and economic professionals, and the public • Learn to Fly Fish: fly-fishing clinic after the conference • Also attend a book-signing with David Wheeler, the author of "Wild New Jersey: Nature Adventures in the Garden State"
Who Should Attend	This conference is open to the general public interested in the economy, ecology and future of the Raritan River Region. However, there is a particular focus on any municipal employees or professionals working in the following categories in the Raritan River Region: Attorneys • Mayors • Planners • Landscape Architects • Public Works Managers • Parks and Open Space Managers • Water Resource Managers • Engineers.
